TrueBLUE™

**TB-36ML**
*Bluetooth Wireless Headset*

# Contents

## 1  What's in the box

The headset contains the following parts:

1. Multi-function Button
2. Ear Hook
3. Charging Socket
4. Microphone
5. Volume Up Button
6. Speaker
7. Volume Down Button
8. Indicator Light
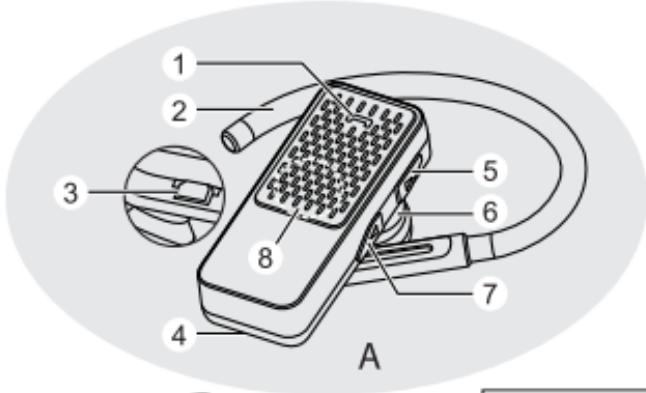

Package contents:

A. TB-36ML Bluetooth Headset
B. Charging Charger
C. User Manual
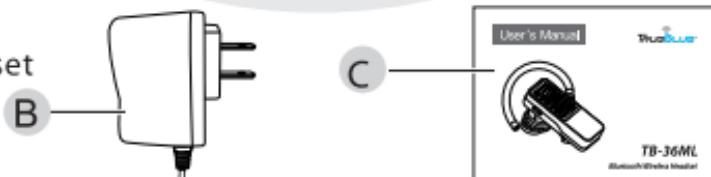

Optional:

D. Car Charger

Before you use your headset for the first time, ensure that it is paired to use it with devices such as your Bluetooth phone.

Once you pair the headset with a device, the headset will be automatically connected to the device whenever you turn the headset on.

Ensure the headset is off.

Press and hold the Multi-function Button until you see blinking blue and red light. (Approximately 6 seconds), then release.

Set your Bluetooth phone to "discover" the headset by following your phone's instruction guide. Typically, go to the "Bluetooth" menu on your phone and then selecting the option to "discover" a Bluetooth device.

**Bluetooth devices**

TrueBlue TB-36
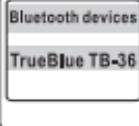

Your phone will find your headset and ask if you want to pair with it. Confirm this by pressing "YES" or "OK".

**Scan results**

Enter Bluetooth Passkey

(****)

Enter passkey or PIN=0000 (4 zeros), then press "YES" or "OK".

### IMPORTANT!

When the headset paired with mobile phone, the indication light will flash 1 time every 3 seconds. If failed, the blue indicator light will flash 1 time every 5 seconds.

## 3 *Charging the battery*

This device has an internal, nonremovable, rechargeable battery. Do not attempt to remove the battery from the device as you may damage the device.

1. Connect the charger to the correct outlet.
2. While the charger is connected, the red indicator light is displayed during charging. If charging does not start, disconnect the charger, plug it in again, and retry. Charging the battery fully may take up to 2 hours.
3. When the battery is fully charged, the red indicator light turns off. Disconnect the charger from the headset and the wall outlet.

Open the cover
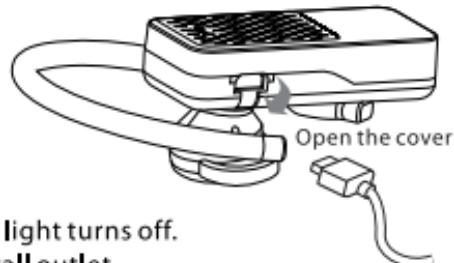

The fully charged battery has power for up to 10 hours of talk-time or up to 220 hours of standby time. However, the talk and standby times may vary when used with different mobile phones or other compatible Bluetooth devices, usage settings, usage styles, and environments.

When battery power is low, the headset will remind you by beeps every 20 seconds, and the red indicator light will also flash.

### IMPORTANT NOTICE!

1. For first time use, please charge the headset fully . If you cannot see the indicator light when charging, please leave the headset charging for a while (Approx 15-35 Minutes), the indicator light will then illuminate.
2. If after a full charge, you cannot turn the headset on, please reconnect the headset to the charger for a few seconds to activate it.

## 4 Battery information

Your device is powered by a chargeable battery. The full performance of a new battery is a achieved only after two or three complete charge and discharge cycles. The battery can be charged and discharged hundreds of times, but it will eventually wear out. Unplug the charger from the electrical plug and the device when not in use. Do not leave a fully charged battery connected to a charger ,since overcharging may shorten its lifetime . If left unused, a fully charged battery will lose its charge over time.

If the headset is left unused for a long time ,please turn off and fully charge the headset. To prevent over-discharge, which will endanger the battery, you are recommended to charge the headset fully each month.

Never use a charger that is damaged.

## 5 Turning headset on /off

|  | How to act | Tones | Indicators |
|---|---|---|---|
| Turning on the headset | Press and hold the Multi-function Button for 2 seconds until you see a blue indicator flashing, then release it. | Turn-ON melody | The blue indicator will flash indicating the power is on. |
| Turning off the headset | Press and hold the Multi-function Button for 4 seconds until you see a red indicator flashing, then release it. | Turn-Off melody | After red indicator flash, it will be turned off. |

Please note: To conserve power, the headset will automatically turn off if it detects that it is not connected to a device for more then 10 minutes.

To use the headset with the ear hook:
The headset can be worn on either the Left or Right ear. If you want to wear the headset on the other ear, please change the direction of the ear hook. Follow the figures below.
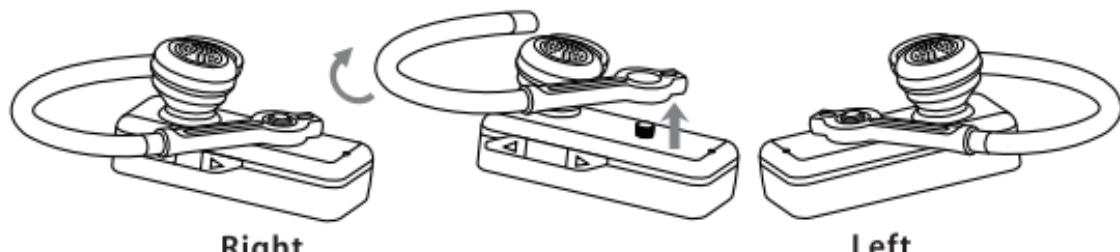

**Right**                    **Left**

To use the headset without the ear hook:
Plug the headset into you ear and point the headset toward your mouth.

## 7 Making a call

**\* Using phone's keypad**
(1)Dial number on keypad.
(2)Press phone's "send"key.

**\* Using voice-activated dialing**
Please check if your mobile phone supports voice dialing function. If your phone does support this function, please follow your mobile phone manual instructions for set up.
(1)Press the Multi-function Button briefly, then you can hear a short beep.
(2)Say the name of person you wish to call.
(3)If the voice tags are paired to the related phone number stored in you mobile phone, the number will be dialed.

**\* Last number dialing**
Please check if your mobile phone supports the redial function.
(1)Press the Volume Down Button for 2 seconds.
(2)You can hear a short beep.

## 8 Ending a call

Press the Multi-function Button briefly from the headset while you are on the line. You can also end call from your mobile.

## 9 Reject an incoming call

When you receive an incoming call, press and hold the Multi-function Button for 2 seconds and then release.

## 10 Answering a call

When you receive an incoming call, press the Multi-function Button briefly.

## 11 Transferring a call

(1) Headset to phone: Press Volume Up Button for 2 seconds.
(2) Phone to headset: Press Volume Up Button for 2 seconds.

## 12 Call-waiting (Three-Way Calling)

Before using 3 way calling with your headset, you must ensure that your phone supports the Hands-free Profile and that the "call hold and/or multiparty" services are available in the network.

(1)Press the Multi-function Button briefly to accept or receive waiting(incoming) call and end active call.

(2)Press the Multi-function Button for 2 seconds to accept waiting(incoming) call and hold active call.

## 13 Volume control & Mute function

You can adjust the volume by pressing volume up and volume down button. Press and hold the Volume Down Button for 2 seconds, you will hear short beeps low to high. The headset MIC will then be muted and you will hear a remindful melody every 10 seconds. Deactivate the mute function by pressing the Volume Down button 4 seconds, you will hear short beeps, low to high first, and then hear short beeps, high to low, indicating the mute function has been cancelled.
